

Load stand **K-502 series**

It is a load stand that can be measured up to 2KN(200kgf) for the measurement that is pushed and pulled.

K-502H

Feature

This new type Load Testing stand can be used for a long time. Because the height of table is so lower than the existing type and the eye point is just fitted to the measuring point on the desk.

K-502E

Push-pull tester in the photograph is an optional.

《~500N type》 Combination Type :

- Push Pull Tester
